today

OMAR JIBRAN
ENGINEERING INDUSTRIES LTD.

Omar Jibran Engineering Industries Limited (OJ) was incorporated on the 25th of June 1987. The commercial production in Karachi plant, which was OJ's first plant, started on the 1st of July 1990. The first product was Suzuki Mehran radiator grill. It sure was an exciting day. Soon the front and rear bumpers for Suzuki Mehran were produced and then there was no looking back. Over the years OJ Karachi is producing more than 150 plastic injection molded parts for Toyota cars which are being assembled by Indus Motor Company, a JV of Toyota Motor Corporation of Japan and House of Habib in Karachi Pakistan.

In 2005, OJ constructed another manufacturing plant in Lahore, mainly to cater for Honda car parts, as the Honda Car assembly plant is situated on Multan road outside Lahore. Today, OJ is Pakistan's largest Plastic Injection molding and sheet metal pressing company for the automotive industry.

team

OMAR JIBRAN
ENGINEERING INDUSTRIES LTD.

Our success is our team. We work hard to hire the best available people at all levels from an apprentice and unskilled worker to a director. It then takes a lot of training effort teach our employees all the soft skills so that all necessary work ethics are developed. The management is aware that the work ethics is critical to sustainable productivity.

The management team is led by the CEO who has 45 years of experience in managing manufacturing businesses in Saudi Arabia, UK, USA and Pakistan. The CEO has a Master's degree in Engineering from UC Santa Barbara California.

We are a bunch of professional 25 degree engineers, 60 Diploma Engineers, two Chartered Accountants and five MBAs. There are two expatriate senior staff. One Technical Advisor from Japan and one Director Technical from Taiwan.

advantages

OMAR JIBRAN
ENGINEERING INDUSTRIES LTD.

OJ management and staff is totally dedicated to providing each product and service to conform each customer's quality and delivery requirement. The customer satisfaction is the highest goal for which OJ strives extremely hard.

OJ stands for high-quality standards at every stage of the project. From the very first market and feasibility study to the installation and start-up of your new line.

stretching the limits

budgets

OMAR JIBRAN
ENGINEERING INDUSTRIES LTD.

OJ management believes, that while to deliver on time quality products, the greed is a bad business practice. Thus it is the aim to provide each product and service while remaining within each customer's buying budget. Therefore each product and service is competitively priced. The customer who do business with OJ will soon realize that they are getting the best value for their money. This is a secret of OJ's reliable client base.

planning

OMAR JIBRAN
ENGINEERING INDUSTRIES LTD.

OJ technical and product costing experts work with each customer in understanding the customer quality, delivery and pricing needs. This is the beginning of the planning process for products for each customer.

Right from the start of your project we offer you valuable information to support your decision-making process. Take advantage of our vast project and industrial expertise, including:

Joint market analysis. Feasibility studies and product planning tailored for the specific need. Building layout consulting to optimize your product quality assurance. Project engineering including a design in 2D drawings and 3D part modelling.

manufacturing

OMAR JIBRAN
ENGINEERING INDUSTRIES LTD.

Having arrived at complete understanding of the customer's dimensional, appearance and reliability needs for each product as per the above mentioned planning process, OJ then sets out the manufacture the product according to the agreed customer's quality and requirement, delivery needs and while remaining within costs.
